The Geo-thermal well field bid packages have been received and SMD will make the award recommendation to the PPSC this Tuesday evening. The contract should be issued this week for work to begin ASAP.

We anticipate receiving the "FULL" building permit this week. We currently are working under a "site/foundation" permit. We also have permit in hand for installation of the sanitary sewer on site and a full plumbing permit.

The concrete foundation work was completed today. The interior footings and the foundations for the exterior entry canopies were completed last week.

SMD has awarded the subcontracts for the remainder of the work for Spirit One.
