

It's a GO! Construction on the new Holy Spirit Church building at Parkside will begin this summer. The current Parish Pastoral Council has affirmed the decision of the previous Council when it decided on March 24, 2008 to construct the church building back-to-back with Spirit 1. At the time, the Council requested that this building plan be reviewed in early 2009 by the finance committee and the current Council as a financial safeguard. At the March 2nd meeting, the Council heard from Art Kunkel of the Steering Committee, Barry Howard of the Capital Campaign Committee and Linda Keene of the Finance Committee. After weeks of intensive study, all three recommended that the church building be started this summer. The Council members agreed and affirmed the earlier council's decision.

By starting the construction this summer, parishioners may expect to attend Mass in the new church at Parkside by Christmas 2010. We expect to move to Parkside and hold Mass in the newly completed Parish Hall in early 2010. This is such an exciting time for us here at Holy Spirit! We ask for your continued support of these projects, both prayerfully and financially.
